

*Embassy of the United States of America*

October 17, 2017

Dear Ora,

Thank you very much for providing the U.S. Embassy's American Center Jerusalem with an impressive, stimulating and professional 12-week leadership series entitled "Women Lead in Life Circles" which was held from October 2016 – January 2017. I understand that your expertise was extremely valuable to the 35 participants, who benefited from your vast experience and knowledge as a social coach. The 60 academic-hour program provided the participants with the skills to gain confidence that empowered them to advance on a personal economic and professional level, while building effective networks among themselves.

Indeed, the program was so effective that the U.S. Embassy is delighted to fund for a second year a similar workshop for a different group of 35 women from Jerusalem's diverse, multi-sector population that will run from October 2017 through January 2018.

We look forward to partnering with you again to advance the Embassy's strategic priority of economic empowerment through networking, workshops and training while ensuring diversity and inclusion within Israeli society.

Sincerely,

A handwritten signature in black ink that reads "Lisa Bess Wishman".

Lisa Bess Wishman  
Director, American Center Jerusalem  
Embassy of the United States to Israel
